SUPPORT LETTER FROM THE FEDERATION OF OILWORKERS TRADE UNIONS, OFS. NORWAY

OFS support the privilege to strike and organise workers. OFS support every citizen freedom to express their understanding of the community they live in. This right is world wide and belongs to every human being. If man or women have to live their life in fear and danger because their political leaders does not approve this universal rights, it shows that this political leaders powerty is build on unfair play and ignorance.

OFS ask with this letter the government to stop all the intimidation of the textile workers and to honour the agreements, OFS also ask you to as reinstate the six workers who were made redundant.

The Kurdistan textile workers are for the oilworkers in OFS a symbol of the courage all the workers need to get similar conditions all over the world. If there are made any harm of this workers caused by unfair play from the companies or the political leaders, OFS will informe all Norwegian Investors, included the Norwegian Government and ask them to made pressure to stop the harassment of workers.

Sincerely,
Kari Bukve
Organization secretary
Of the Federation of Oilworkers Trade Union, OFS.
